

**BUSINESS AND NONINSTRUCTIONAL OPERATIONS****Conservation of Resources**

The increasing demand for the natural and manmade resources of the nation and the world is a matter of concern to the Stafford County School Board. In light of the present shortages of certain vital resources, the board requests and authorizes the superintendent to set up appropriate regulations for the conservation of natural gas, electricity, gasoline and other petroleum resources and general resources such as paper products.

Adopted by School Board: March 24, 1987
